

Hello, I'm Benji bin! My job is to help you save the planet by **recycling** your rubbish. I take all of your old **boxes**, **bottles** and **cans** and make them into shiny new things.

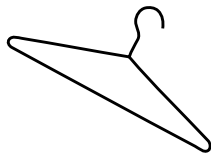

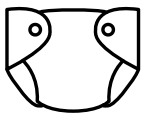

When you use me to recycle, I reduce the amount of rubbish that ends up buried in the ground. This is called **landfill**, and it is very bad for the environment.

Did you know?  
Recycling is using something old to make something new

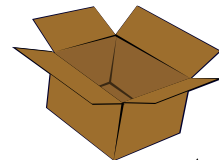

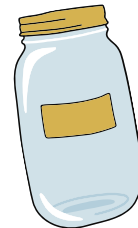

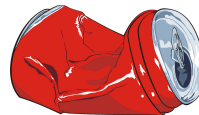

Not all rubbish can be recycled, you can help me out by making sure you only put the right rubbish in the right bin!

I cannot recycle **pizza boxes, coat hangers, plastic bags, nappies or garden waste.**

My friends and I can recycle **bottles, cans, tins, cardboard, glass jars and paper.**
