

Compared to big business, households only produce a fraction of the total greenhouse gases

1. True

2. False

Turning up the thermostat means that the house heats up faster

1. True

2. False

Fluorescent lights use a large amount of energy each time they are turned on so it is better to leave them on

1. True

2. False

When an appliance is on standby it does not use any power

1. True

2. False

Small draughts do not make that much
difference

1. True

2. False

Taking a shower uses less water than a bath

1. True

2. False

It is OK to throw away food waste as the natural materials will biodegrade

1. True

2. False

Carbon offsetting would cure climate change and help the environment if we all started doing it

1. True

2. False

How concerned, if at all, are you about climate change?

1. Not at all concerned
2. Not very concerned
3. Fairly concerned
4. Very concerned

I sometimes think climate change might not
be as bad as people say

1. Agree

2. Disagree

To what extent do you agree or disagree that
it is too late to stop climate change

1. Strongly agree
2. Slightly agree
3. Neither agree or disagree
4. Slightly disagree
5. Strongly disagree

I want to see Government do more on
climate change

1. Agree

2. Disagree

People say they are concerned about climate change but at the end of the day they are not willing to make the sacrifices

1. Agree

2. Disagree

In my experience, people taking action to reduce their carbon footprint is normal

1. Agree

2. Disagree

Individuals should not be expected to do anything to tackle climate change

1. Agree

2. Disagree

Individuals should be expected to do things like recycling and turning their lights off but no more

1. Agree

2. Disagree

Individuals should be expected to take some bigger actions, ie in terms of the products they buy, how much they pay for things and how much they drive and fly

1. Agree

2. Disagree

Which, if any, of the following do you think will have the most impact on you personally if climate change were successfully tackled?

1. A cleaner atmosphere
2. Less severe weather
3. Slower spread of disease
4. Lower insurance premiums
5. Greater stability and security for my children
6. Less likelihood of water shortages
7. Less likelihood of being flooded
8. Do not have to suffer the discomfort of high temperatures
9. Greater variety / quality of wildlife

Which action will you pledge to do more of after today's Assembly?

- 1. Use less electricity**
- 2. Recycle more**
- 3. Avoid creating waste in the first place**
- 4. Make fewer car journeys by using public transport, walking and cycling more often**
- 5. Use water sparingly**
- 6. Buy locally grown food**
