

Children and Young People's Plan 2011-2014

'You said, we did' - What has been done as a result of what children and young people told us

This appendix updates the activity that has changed outcomes for children and young people in Darlington in 2010-2011.

Under the Children Act 2004, there is a legal duty to ensure that children and young people are given the opportunity to have a say in the decision making process in issues that affect them.

Article 12 of the United Nations Convention on the rights of the Child, states that children and young people should be given the right to express opinions and ideas. We believe that children and young people's contribution and involvement will not only help in delivering high quality services but will also ensure those services are fully inclusive and meet the needs of children and young people in Darlington.

Darlington Children's Trust has adopted a Participation Strategy that promotes proactive support for working in partnership with children and young people and endeavouring to remove barriers so that there can be a continual and sustainable process that does not restrict nor restrain young people from voicing their needs.

The adoption of **'What's Changed? Logs'** in 2008/2009 has enabled Darlington to record clear impact and outcomes from engagement and involvement of young people.

In 2010, the UK Youth Parliament elections were conducted and Ben Million, a pupil at Hummersknott School and Language College was elected as Darlington's Member of the UK Youth Parliament. An update on his manifesto commitments are outlined in the following *What's Changed* log.

The continued use of the What's Changed logs enables young people to update their views and comment on issues affecting them across the Borough. The following logs have been updated to include the views and opinions of Darlington's children and young people in 2010-2011.

The updated *What's Changed* Logs below were completed between April 2010 - March 2011 by a range of young people from Area Forums, Young People's organisations and communities in the Borough.

Issues raised by young people from Branksome Youth Club		
1. Listening	2. Action	3. What's changed?
As part of the clubs program we have informal discussion with young people asking about their local area, they identified the lack of facilities in the area as their main issue, we identified possible venues.	Youth Workers took the issues to the Locality Forum, voicing the issues from young people, had conversations with other professionals working in the area, including Police and PCSOs.	The Locality Forum was able to support the young people by providing a sports hall, along with a Sports coach to facilitate sports sessions, as part of the youth club program. This happens on a weekly basis.
We used to play football outside the shops, and get in trouble from community Wardens. Went to the youth club and talked to youth workers about playing football.	We came up with different venues including the MUGA at the back of the centre, but due to the lights being in the swimming pool, and damage to the lights we had to look elsewhere, and the MUGA gets locked for no reason.	We now have access to football and other sports on a weekly basis, being based in the school is great because we feel comfortable there.
As part of the area face to face hours, youth workers promote what the area offers, during school lunchtimes. Providing young people with the opportunity to have conversations with youth workers about their goals and aspirations.	As the young people now realise that their voice is heard, it is encouraging other young people to access the centre, coming up with innovative project ideas.	Branksome Youth Club has now increased attendance to over 45 young people per night, due to young people knowing that they have a say in the centre.

Issues raised by young people from Middleton St George Youth Club- THE CRIB		
1. Listening	2. Action	3. What's changed?
We used hang round the park in MSG, as there was nothing to do in the village. Detached Youth Workers met us and asked us what we would like to do.	The Youth Workers then took us on visits to different Youth Clubs in Darlington with the aim of seeing what they where like. We then designed our own Youth Club and wrote a wish list of things we would like in this Club.	Because there where not any suitable venues for a Youth Club the Youth Workers took us on trips and we did various fun activities. We formed a Youth Committee and help to run the Club; we have a lot of say in what happens in the club. "As a result of this work we feel more valued part of the community"
After the Youth Workers met the young people in the park at MSG, they looked at a number of venues but none where suitable to run a Youth Club.	The Youth Workers arranged a meeting with the local Councillors and the young people to see what could be done in the way of developing a Youth facility in MSG. The young people wrote a DOSH bid and the Councillors also support accessing additional funding.	The Cellar of the local Community Centre was furbished and is now a purpose built Youth Club. It is an excellent facility.
	The Youth Committee asked there peers what they would like to see in the Club and what the Club should be called. Young people named it "The Crib".	Many young people regularly attend the Crib, which is open on a Thursday evening
