

CORONAVIRUS

Regular rapid testing will help protect your workforce.

JESS, NURSERY TEACHER

Regular testing of all workers will help stop the spread & protect your organisation.

Free rapid tests are now available for workers who have to leave home to work.

They should get tested, even if they don't have symptoms. Around 1 in 3 people who have Covid-19 don't have any symptoms and can spread it without knowing.

They should test at least once a week.

To continually protect your organisation, allow your workers to get tested during work time.

For workers who have to self-isolate they may be eligible for financial support.

Book a test at
www.darlington.gov.uk/testing

**REGULAR TESTING FOR
SAFER WORKING IS HERE**
