Importance: High

Please find my comments concerning the above draft plan.

I agree with the Plan In particular, the settlement boundary and the proposed designated Local Green Spaces (LGS) and Protected Open Spaces (POS).

A couple of areas that need to be classified please are as follows.

1. Field at the back of Almora hall that goes west across to Roman road field path, bordered by new housing to the north
2. Field to the south of this one above that is accessed by an alleyway off Church lane and bordered by Almora hall, houses on Hunters green and continuation of Roman road on to Church lane.

3.

I believe both of the above fields should be classified as POS as they provide a valuable amenity, have foot paths and most importantly continue the east west green split between Middleton st George and Middleton one row

Please review the above comments and let me have any response.

Yours sincerely,

Mark Stratford
