

Central Park, Darlington - an exciting development where business, residential and learning sit side by side.

Darlington Campus

Incorporating Teesside University's Centre for Professional & Executive Development & Darlington College.

National Horizon Centre

Skills for the future coming 2019, led by Teesside University with indicative Local Growth Fund allocation. The NHC will be the national training and education provider for the bio-industry, tailoring programmes to industry needs and spanning the full range of further and higher education, facilitating significant research partnerships with industry. High-value, knowledge intensive processes in biologics and other advanced manufacturing sectors are key to UK growth and competitiveness. Harnessing Teesside University's leading-edge expertise in digital technologies will be a key feature of the NHC.

Business Central

Growing business and competitiveness in Darlington. £6.6million Grade A office development, funded by ERDF and HCA offering up to 60 work spaces. Delivered by DBC.

Parkgate cycle and pedestrian bridge

Central Park North Residential

157 new homes have been delivered by Keepmoat Homes with a total of 158 targeted for completion for 2023.

Healthcare Futures Centre

Increasing the UK's manufacturing capability in biologics led by CPI. Indicative Local Growth Funding allocated. Coming 2019.

National Biologics Manufacturing Centre

Designed to help companies in the biologics market develop, demonstrate and commercialise new processes and technologies. Funded by Technology Strategy Board and delivered by CPI.
