

# ESOL\* for 16-18 years olds

*\*English for Speakers of Other Languages*

with Learning & Skills Darlington

Do you know a young person whose first language is not English and needs support with their English language skills?

Our ESOL Study Programme is aimed at 16-18 year old non-native English speakers who need to learn English to access higher or further education and find employment or training.

We will also help to develop personal, social and employability skills and there will be opportunity to undertake work experience.

**Plus there's no fee!**

**[Starting January 2023](#)**
