Why did you choose an Apprenticeship?

I chose an apprenticeship as I struggled with traditional education and wanted to train while being able to work. I always knew I wanted to work in this sector, so being able to learn through experience was brilliant for me

What benefits does an Apprenticeship have?

The ability to be paid while learning, the added experience, and the support of the training provider.

What do you enjoy most about your Apprenticeship?

I enjoyed being able to go to work everyday knowing I was doing something vocational, and something I want to do my best in. it makes you work 10x harder knowing you're doing something you really enjoy

What would you say to other people thinking about doing an Apprenticeship?

Do it! Life's short, what's the worst that can happen? Why settle for a career that's not for you?
