

Blue Badge PARKING CHARGES

This ludicrous charge is without doubt on one of the most venerable groups of people in 'good old Dorset' - while the majority of fit people will be swanning up to town at no cost whatsoever! Shame though on encumbering 'companions of the disabled' with by removing their free passes - a difficult enough job to carry out - maybe this disincentive will make most carers opt out.

As a Blue Badge Holder I need someone with a car & the time to take me door to door (plus petrol). I fully appreciate all concerned - Blue Badge admin - parking places, I knew something was afoot

When the disabled parking places off Duke Street were recently placed near the pay machine!

Laws - (like some covenants) are made to be broken or changed. I think the disabled in this town deserve better and their few privileges to be protected.

How about discussing it with the E.U.!
