

31 May 2016

Dear Mr Dixon

I attended the Special Efficiency & Resources Scrutiny Meeting last Thursday, after which you approached us and advised us to write in with any questions that we may have. Mine is, 'Why are you dancing to David Cameron's tune?'

You will instantly say because of the cuts to fundings from Government. Are we not able to play him at his own game? Sorry that's two questions. To my mind he is ruining the Labour Party for good and they will never be able to regain what they have lost. He is a very ruthless man and he is running this country into the ground.

You need to keep the working class people of this town and outlying districts on your side, and work together to try and find a working solution to keeping our Libraries and Citizens' Advice Bureau in tact. These are fundamental services and are a positive link to the people of this town. When they have very little money, little hope and nowhere to turn, these are the two places they can go for help and solace.

I am a young pensioner and with a small group of friends, have been petitioning to Keep our Library in Crown Street. I know about scrimping and what it's like to not have much money to buy my family presents for Christmas or their birthdays, but I would rather go without myself.

Please have an alternative outcome than to transfer the Library to the Dolphin Centre, as one elderly, disabled gentlemen said to me 'It simply hasn't got the ambience' and I totally agree with him. You will be doing yourself and the Labour Party a favour, as well as this town if you give this your serious consideration.

Yours sincerely
